The affected communities affected were mostly families that were located in indigenous shelters, villages and urban areas of the municipality of Mocoa.

In addition to Humanitarian Aid, the Corporation Organization the Minute of God provided psychosocial support to families through accompaniment in the grieving process, strengthening self-esteem, attention in crisis among others.

This allowed the community to recognize Give To Colombia and the Organization The Minute of God Corporation as entities sensitive to those affected by the disaster.

Natural and active to provide pertinent aid and in a timely manner.
The tragedy left as a result 3,000 people without housing in Mocoa. To respond to this, Give To Colombia and OXY made a contribution of US $ 300,000.00 that was used to purchase the land and construction of the first stage for 20 housing units, each with a total area of 52.7 square meters and have the following layout: 2 bedrooms, study, kitchen, patio, dining room, bathroom and balcony. 20 Families will be benefitted by this donation. The average family household has 5 members so approximately 100 beneficiaries will be directly benefitted with a strong construction that was elaborated with environmental considerations.
